# Missyolin Eunike Rungguni Samosir

## Summary

I am a third year student at Institut Teknologi Del and majoring Informatics. I have developed my technical skills and soft skills from my course at university. I am reliable at working within a team, exploring new things, and solving problems. I am interested in designing and building websites. I like to design a simple and informative design. Now i'm learning several programming languages such as Java, Python, HTML, CSS, and Javascript.
